

DAGTVA®

Dispositif technique Automatique de Gestion de la TVA

World Single Market - Wayfair environment

B²B cross-border direct
transaction – buyer in U.K.

Payment by bank transfer

Sale taxes collected in buyer's country

Independent of tax system used

DAGTVA is divided in two separate and autonomous parts.

———— Line of the secret between tax authorities and banking system ————

« Making Tax Digital » Declarative Tax System for UK

Part
Registrants & Tax authorities

« Making Tax Digital » Declarative Tax System for UK

Part
Registrants & **Tax authorities**

The security and control of statements are assured by the tax authorities.

Part
Payments & Banking system

« Making Tax Digital » Declarative Tax System for UK

Part Registrants & Tax authorities

The security and control of statements are assured by the tax authorities.

Part Payments & Banking system

Like today, the security and control of payments are assured by the banking system.

« Making Tax Digital » Declarative Tax System for UK

Part Registrants & Tax authorities

The security and control of statements are assured by the tax authorities.

DAGTVA

DAGTVA use these two secured environments to create a third - tax withholding inviolable system.

Balance of payments
End of classic process

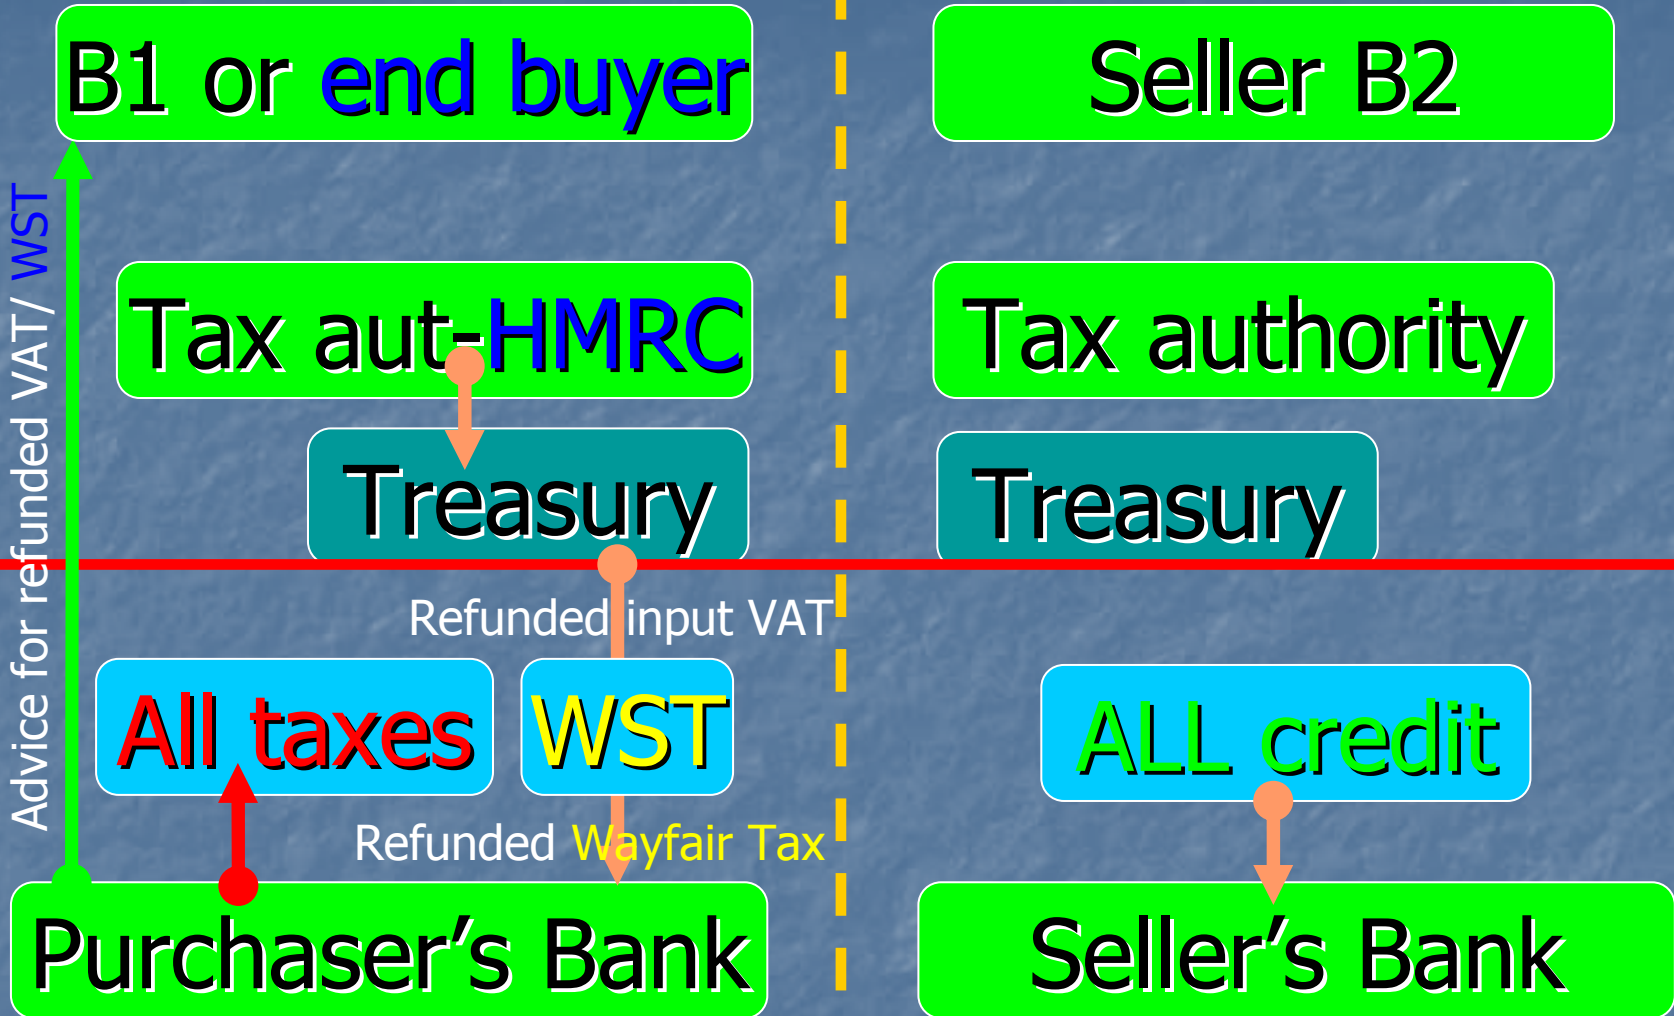

Special case where the “Wayfair tax” applied on consumption will be refunded like in VAT environment for companies and too for an ultimate consumer who have weak revenues.

This possibility show that, without any modification, there is no difference in the DAGTVA taxation system used between businesses and the ultimate consumer to include them with the same advantages seen in a VAT environment.

This new tax system open the way for an economic integration for them and gives a mandatory access to the banking system for these poor persons.
